MSEDP

Web designer

May 2013 - May 2016 (3 years 1 month)

As a web designer at MSEDP responsibilities includes creating the look, layout and features of a website. My job involves understanding both graphic design and computer programming, designing web page layout determining technical requirements, updating websites, creating backup files, Solving code problems. Once a website is created help with maintenance

and additions to the website. work with development teams or managers for keeping the site up-to-date and prioritizing needs, among other tasks. Working at MSED P have given much experience in some of the following technologies:

JavaScript and jQuery
Content Management System
CSS
Responsive Design
T.F.S
ASP.Net webforms
